- **Website**: Stardock.com/Products/Start11

- Graphical Assets for Start11 v2

Launcher   App   Pro

Three New Start Menu Designs

- **Launcher** – Designed to match mobile devices, Launcher is a clean and minimal Start experience.
- **App** – Created for those who want the fastest access to their applications with two options for navigation.
- **Pro** – For the professional who wants a modern style that looks good at home or the office.

Tabs, Groups, Pages

- **App Canvas** – All of the new styles have an app canvas that allows the user to create a Start menu layout that matches their exact specification

- **Pages** – Add pages to the app canvas to create a clean and simple layout.

- **Tabs** – Add tabs to your Start menu layout for a powerful interface for organizing your applications.

- **Groups** – Bring the contents of any folder into your Start menu with a Group, such as your Downloads folder.

- **Folders** – By dragging an icon on top of another, a folder of apps can also be created in the app canvas.
Customization

- Fully customize nearly every aspect of the Start menu including shortcuts, color, transparency, size, and more.

- Create a uniform icon experience with icon tinting that allows you to apply coloring the Start menu icons.

- Change the Start menu background texture or add your own background image for a truly unique design.

- Adjust the icon size to create a dense layout or make the icons larger for easier tapping on touchscreen devices.

- Lock your configuration to stop accidental changes to your layout.

- And a lot more, nearly every component of the Start menu can be altered in various ways to help users create their perfect Start menu.
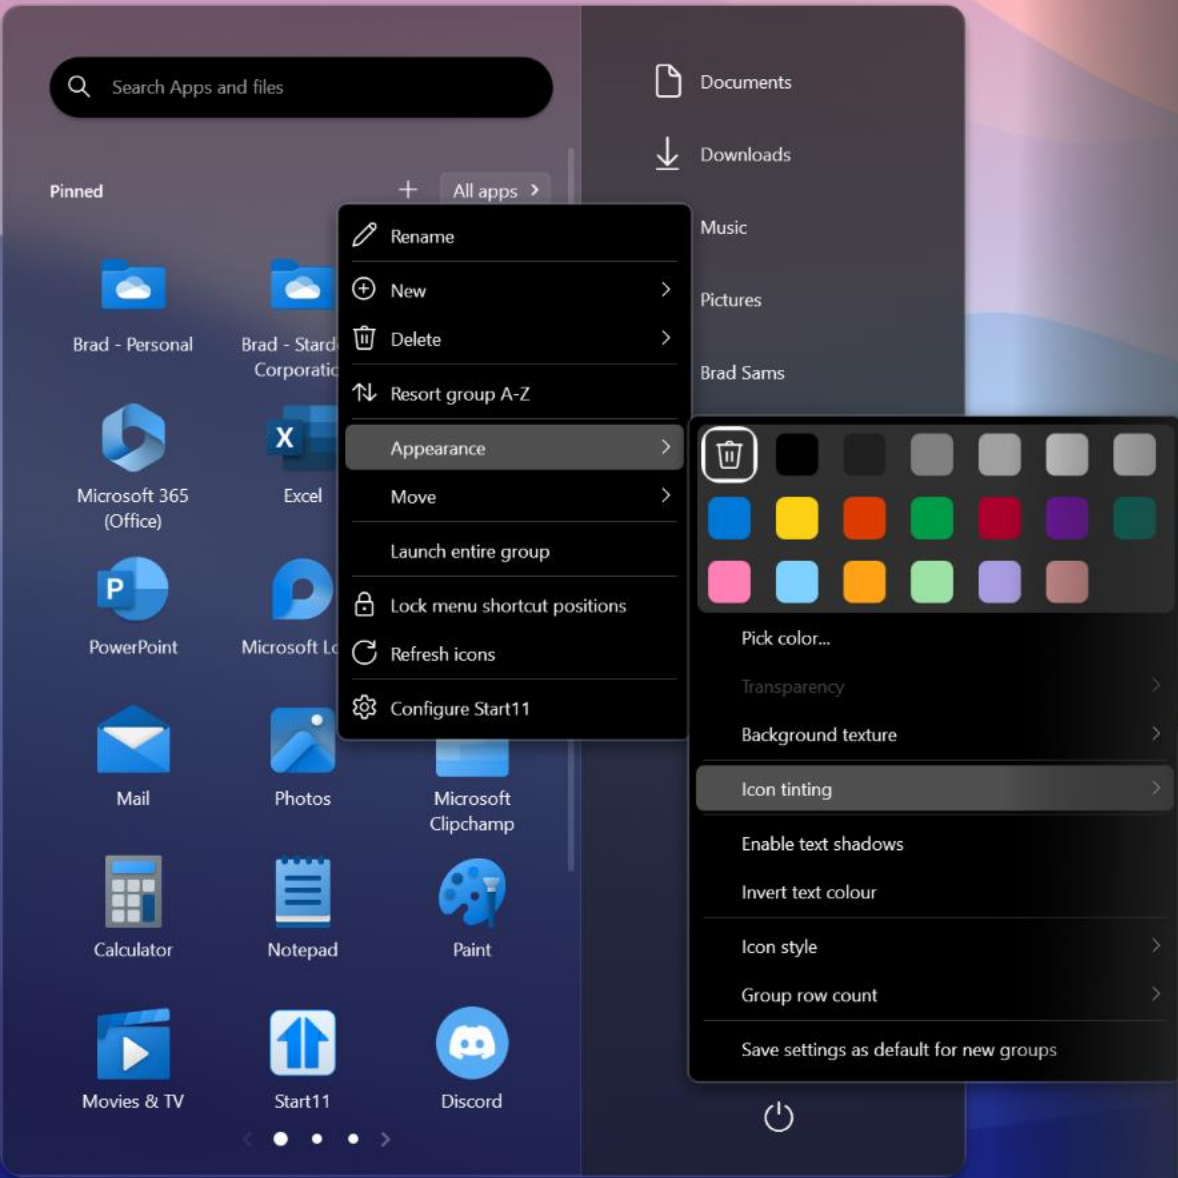

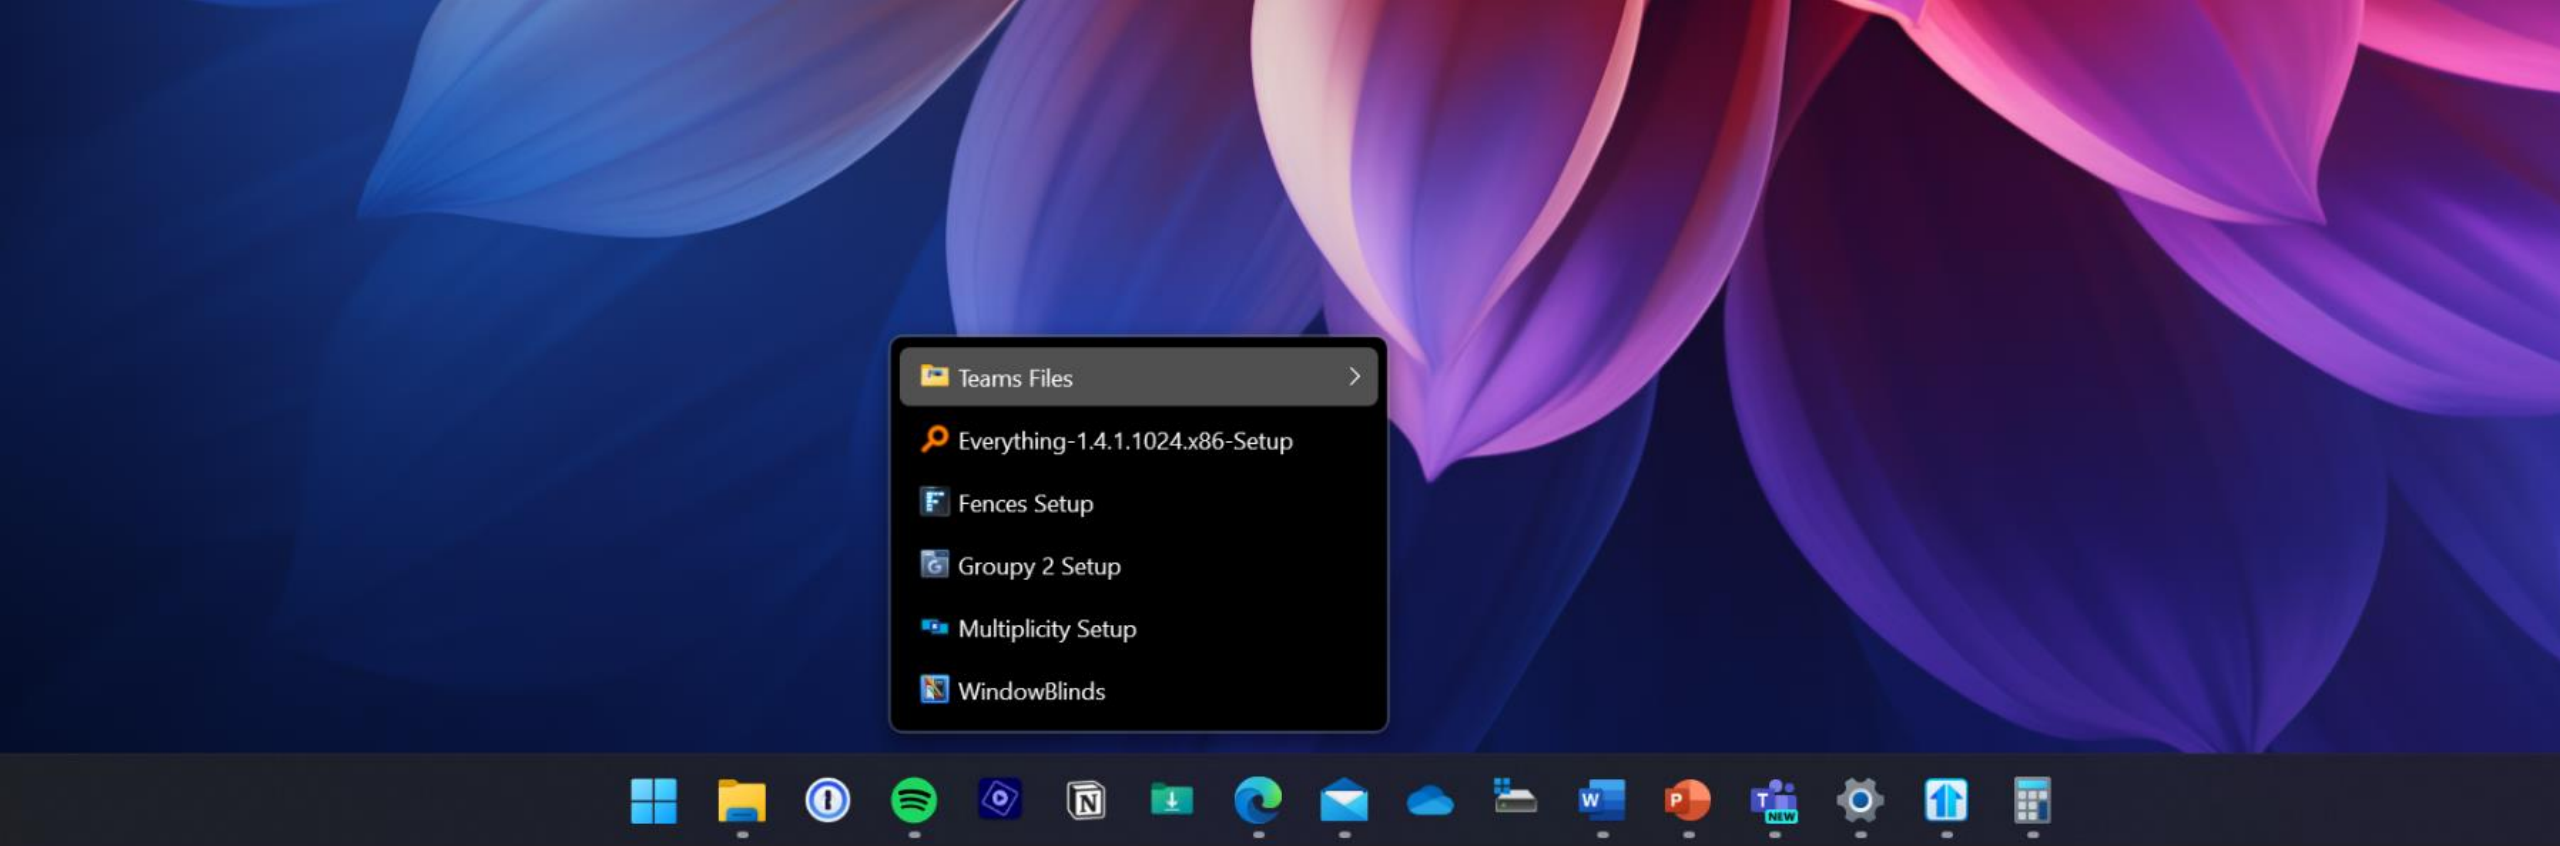

Taskbar Pinning

- **Folder Menu** – Pin any folder to the taskbar to access the contents without opening File Explorer

- **Pin Files or Folders** – Pin any file or folder directly to the taskbar for instant access to frequently used content.

- **Drives** – Add a local or network drive to the taskbar for fast access to local or networked storage.

Enhanced Search

- **Organized** – Search results that are easy to see and understand with results grouped by their function or content type.

- **Everything** – Everything search results are integrated natively into Start11 v2 making it easier to use the best search engine for Windows.*

- **Browser Tabs** – Open browser tabs will appear in your search results if related to your search.

- **Nothing Else** – When searching, you will only see your content and nothing that is being promoted by a third-party service.
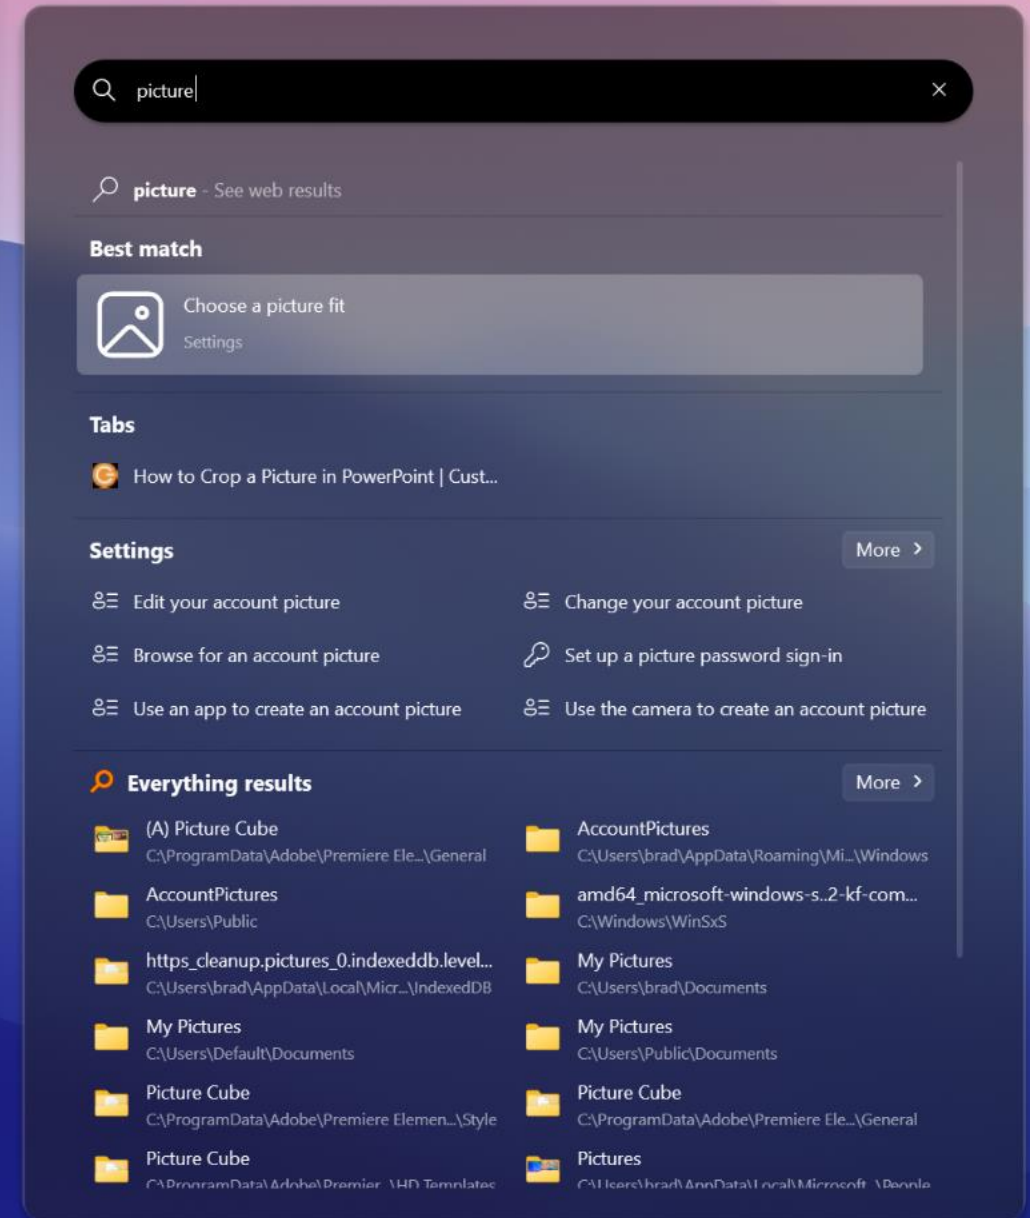

*Everything is a free search app created by VoidTools.

Rounded Taskbars

- **Modern Style**– Everything in Windows 11 has rounded corners but the taskbar, Start11 v2 allows you to round the taskbar corners and create a floating design that freshens up the desktop.

- **Change the Size**– Easily adjust the vertical height of the taskbar and icons or add a custom background texture.

- **Create Your Style** – Change the color, transparency, blur and a lot more.
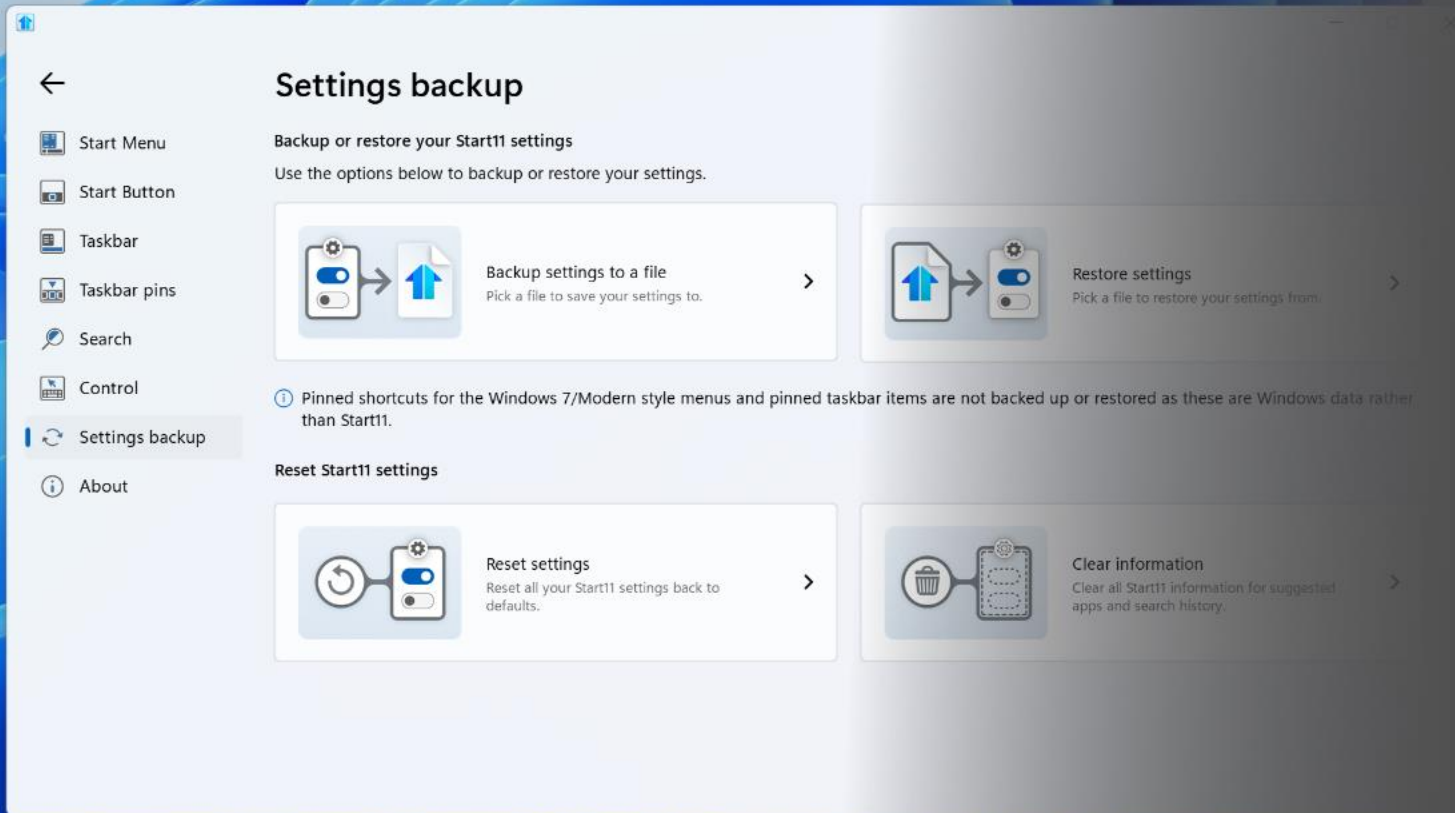

Quality of Life

- Easily backup your Start menu configurations to a single file.

- Loading a configuration from file makes it easy to bring your Start menu to a new machine.

- Reset all your settings with a single click for when you feel like getting a fresh start.

- Clear your information from Start11 to remove any queries from the search history or suggested apps.
